

## Equipment Custodian

**What we do:** We help our customers protect their information assets from hackers and enemy nation states. We sell a wide range of security solutions to help our customers accomplish their data assurance goals, we provide deployment, consulting and staff augmentation services to enable clients to manage the solution and/or security programs on an ongoing basis.

### **Why Us?**

**Culture:** We've been in business for 24 years, but we operate like a startup. We are flexible, enthusiastic, and innovative, constantly improving how we do business; and the quality of the solutions we offer our customers. We thrive on change and on being the agile, flexible, business enablers in an otherwise rigid, contractual world. We enjoy what we do, we have a can-do attitude and a family culture to how we run our business and manage our people. You get to have a direct impact on our business.

**Management Philosophy:** Our management philosophy is built on team collaboration. Coaching and mentoring is essential to our growth as individuals, both professionally and personally. We don't always have all the answers, but will enthusiastically go find them and deliver them in the best way we know how, at a reasonable cost, in a short time frame.

If our culture and management philosophy appeals to you, and you're an IT sales professional, we welcome the opportunity to talk to you.
